### **KGHS and KY NEED Youth Summit and Awards Luncheon**

- Kentucky Green and Healthy Schools and Kentucky NEED Youth Summit and Awards Luncheon was held in Lexington for the first time, with 24 schools and about 200 individuals attending.
- The Lexington Convention Center was a good venue for the event, with a separate space for exhibitors that encouraged more interaction between schools.
- Due to changes in the procurement process, KGHS plaques were not handed out to schools at the event, so KEEC will try to visit as many participant schools as possible to hold award ceremonies, with travel money coming from the EPA grant.

### **KGHS Advisory Committee**

- The Kentucky Green and Healthy Schools Advisory Committee met on May 15, 2018.
- The committee worked on
  - suggestions for closing out the EPA grant
  - new designs for awards
  - possibilities for integrating the Green Ribbon Schools program
  - program sponsorships
