

UPDATE: PREPARING FOR MASTER PLAN AND SURVEY

**KEEC Council Meeting
Agenda Item D-3
November 28, 2018**

Survey of Kentucky Environmental Literacy Alliance members

Kentucky Environmental Literacy Plan

We are writing you because you have previously expressed support for the Kentucky Environmental Literacy Plan, which was drafted by the members of the environmental community and adopted by the Kentucky Board of Education in 2011. In 2018, a drafting team met to update the Kentucky Environmental Literacy Plan. We would greatly appreciate you taking the time to review the goals from new draft version [link] and providing your feedback below.

1. The mission of the Kentucky Environmental Education Council is to promote learning and skills for a sustainable and economically healthy environment. What goals would you add to, or change from, the Kentucky Environmental Literacy Plan in order to fulfill this mission?
2. What goals would you add to, or change from, the Kentucky Environmental Literacy Plan in order to fulfill the mission of your organization?
3. What suggestions do you have that could help Kentucky meet these goals?

5-Year Master Plan for Environmental Education in Kentucky

In 2020, the Kentucky Environmental Education Council will draft a new 5-year master plan for environmental education in Kentucky. While the Kentucky Environmental Literacy Plan is designed for school districts, the master plan is for all organizations concerned with environmental education at all age levels. We would greatly appreciate you taking the time to review the goals from previous master plan [link] and providing your feedback below.

1. The mission of the Kentucky Environmental Education Council is to promote learning and skills for a sustainable and economically healthy environment. What goals would you add to, or change from, the master plan in order to fulfill this mission?
2. What goals would you add to, or change from, the master plan in order to fulfill the mission of your organization?
3. What suggestions do you have that could help Kentucky meet these goals?
