

**ACTION: COMPOSITION OF THE REVIEW
PANEL FOR GREEN RIBBON SCHOOLS
APPLICATIONS**

**KEEC Council Meeting
Agenda Item E-2
November 28, 2018**

Recommendation

That the Kentucky Environmental Education Council approve, for reviewing submissions for nomination to the U.S. Department of Education Green Ribbon Schools, a panel with the following composition: one member of the Kentucky Environmental Education Council, one member of the Kentucky Environmental Education Council staff, and two environmental education professionals—from states other than Kentucky—recruited from NAAEE.

Rationale

- Kentucky Environmental Education Council staff expects to receive applications from schools and individuals with whom we work closely on a variety of issues. Including green schools experts from out of state will help ensure that the nomination process remains objective.
